OBJECTIVE

Experienced PHP Backend developer. I'm able to implement tasks of any complexity and help and couch others. I was responsible for many different areas from Backend development to leading a team.

EXPERIENCE (4.5 YEARS)

PHP BACKEND DEVELOPER/SCRUM MASTER

Puravita (Online Pharmacy). Switzerland, st. Gallen | Apr 2022 - Present

I developed Microservices on Lumen for a Magento 2 project, worked with Feature Toggle and Trunk Based Development and many other topics from page speed optimization to changing a project module management architecture. In addition, I helped the team to integrate Agile and Scrum as a Scrum Master.

MAGENTO FULL STACK DEVELOPER

Lindenvally (E-commerce websites). Belarus, Minsk | Feb 2021 - Apr 2022

I developed modules for Magento 2 and implemented Click and Collect functionality. I grew constantly with learning new practices/technologies (design patterns, company processes) and helping the company to integrate them as a Meetup Speaker and a Team Lead.

MAGENTO FULL STACK DEVELOPER

BelVG (Online Cosmetics Store). Belarus, Minsk | Jun 2020 - Feb 2021

I implemented API integrations and dialed with payment API's. For big tasks: I made huge checkout customizations and Magento 1 to 2nd version migration. In addition, I worked as a Frontend developer using: JavaScript, jQuery, Knockout and LESS/Sass.

LARAVEL/REACT DEVELOPER

iTechArt Group (Surveys Generator). Belarus, Minsk | Mar 2019 - Mar 2020

I made MySQL/ PostgreSQL queries optimizations for an existing Laravel project and implemented features for a startup using ReactJS with Redux and Laravel. For the last project, I developed and maintained an analytical project using MongoDB, Laravel and AngularJS.

EDUCATION

PROGRAMMER

College of Business and Law. Belarus, Minsk | Sep 2016 - Jul 2019
